

Nativos

APPAREL · SUSTAINABLE CLOTHING

IN DEVELOPMENT

Organic cotton, honestly made.

THE BUSINESS

Nativos is an organic cotton clothing line built on a simple premise: fewer, better basics. Certified organic cotton, transparent sourcing, and cuts designed to last years instead of seasons. The line is currently in fabric development, with supplier sampling underway.

WHY IT WINS

100% organic cotton

Every fabric is sampled and vetted for certification, hand-feel, and durability before it enters the line.

Essentials, not trends

A tight collection of everyday staples — designed once, worn constantly.

Transparent supply chain

Sourcing documented from farm to finished garment, so the label means something.

AT A GLANCE

MATERIAL

Certified organic cotton

STAGE

Fabric sampling & supplier selection

POSITIONING

Sustainable everyday essentials
