

THE MENU

WEBSITES & STOREFRONT

The New Website — Designed and built from scratch, with a dashboard you edit yourself.

The Website Tune-Up — Make your current site fast, findable, and wired to the brain.

The Full World — Brand, story, design, and site — the whole treatment.

The Shop — Online store, bookings, and payments: money while you sleep.

THE BRAIN

The Brain — Your private AI and voice-note bot. Everything plugs into it.

Document Reader — Upload a document, get a summary with the key parts highlighted.

The Archive — Old drives and files, digitized and searchable — ask it anything.

GET MORE DONE

Meeting Notes — Turns meeting notes into a simple to-do list.

Efficiency Finder — Finds where you're wasting time.

Task Automator — Takes repetitive tasks off your plate.

MONEY & NUMBERS

The Dashboard — Sales, stock, and jobs on one screen. Mission control for the shop.

Data Analyzer — Turns your numbers into simple insights.

Money Forecaster — Predicts your future cash flow.

Feedback Reader — Reads your reviews and tells you what customers think.

DECISIONS

Decision Helper — Give it a hard choice, it helps you decide.

Competitor Watcher — Keeps an eye on what competitors are doing.

Rule Checker — Tells you what rules apply to your situation.

PAPERWORK & CONTENT

The Contract Manager — Drafts agreements, tracks dates, flags renewals early.

The Paperwork Crew — Invoices, quotes, proposals, and follow-up emails for your approval.

The Content Kitchen — Phone footage in; branded posts and captions out.

How it works: Pick what you need → 30-minute sit-down → we build it → we teach you to run it. **Let's talk** — ross@steadyhand.ai
