

WHAT WE BUILD

Steadyhand AI Consulting

Start anywhere. Everything plugs into everything. Prices at sit-down, sized to your needs.

The Brain

The private AI and voice-note bot. The thing everything else plugs into.

Document Intelligence

Upload any document. Claude reads it, summarizes it, flags risks, pulls out what needs your attention.

Knowledge Base

Give it your docs and know-how. Claude turns it into something anyone on your team can just ask.

The Data Engine

Feed it your numbers. Claude finds patterns, problems, and opportunities you're missing.

Data Analyzer

Sales data, customer data, operational logs. Claude spots trends and turns spreadsheets into decisions.

Financial Forecasting

Plug in your history. Claude forecasts revenue, cash flow, and flags trouble early.

Feedback Analyzer

Reviews, surveys, support tickets. Claude tells you what people really think and what to do about it.

The Decision Maker

Hard calls need a second brain.

Decision Support

Bring it a tough choice. Claude weighs options, flags risks, recommends a path.

Competitive Tracker

Point it at your competitors. Claude watches their moves and tells you how to respond.

Compliance Checker

Tell it your situation. Claude builds the checklist and flags the risks before they bite.

The Workflow Crew

Stop doing it manually.

Content & Communication

Tell it what you need: emails, proposals, posts, reports. It writes them in your voice. 5 minutes instead of 2 hours.

Meeting Assistant

Paste your meeting notes. Claude pulls out every decision, action item, and deadline. Nothing falls through the cracks.

Process Auditor

Describe how you work. Claude shows you where you're wasting time and how to fix it. Cut 20-40% of the busywork.

Workflow Automation

Show it your repetitive tasks. Claude designs the automation to make them disappear. Buy back 10+ hours a week.

How It Works

1

Pick your tool — whatever hurts the most

2

30-minute call — we scope it together

3

2-3 weeks — we build it

4

We train your team — you own everything
