

WHAT WE BUILD

Steadyhand AI Consulting

Custom AI tools that give you your time back.

We build AI assistants trained on *your* business. Pick what solves your biggest headache — we handle the rest.

Document Intelligence

Upload any document — Claude reads it, summarizes it, flags the risks, and pulls out what needs your attention.

Stop reading 40-page docs line by line.

Data Analyzer

Feed it your numbers — Claude finds the patterns, the problems, and the opportunities you're missing.

Turn spreadsheets into decisions in minutes.

Content & Communication

Tell it what you need — emails, proposals, posts, reports — and it writes them in your voice.

5 minutes instead of 2 hours.

Process Auditor

Describe how you work — Claude shows you where you're wasting time and how to fix it.

Cut 20-40% of the busywork.

Feedback Analyzer

Reviews, surveys, support tickets — Claude tells you what people really think and what to do about it.

Never miss what your customers are telling you.

Decision Support

Bring it a hard call — Claude weighs the options, flags the risks, and recommends a path.

A second brain for your biggest decisions.

Meeting Assistant

Paste your meeting notes — Claude pulls out every decision, action item, and deadline.

Nothing falls through the cracks.

Knowledge Base

Give it your docs and know-how — Claude turns it into something anyone on your team can just ask.

Your whole business, searchable.

Financial Forecasting

Plug in your history — Claude forecasts revenue, cash flow, and flags trouble early.

See around corners.

Compliance Checker

Tell it your situation — Claude builds the checklist and flags the risks before they bite.

Sleep better at night.

Workflow Automation

Show it your repetitive tasks — Claude designs the automation to make them disappear.

Buy back 10+ hours a week.

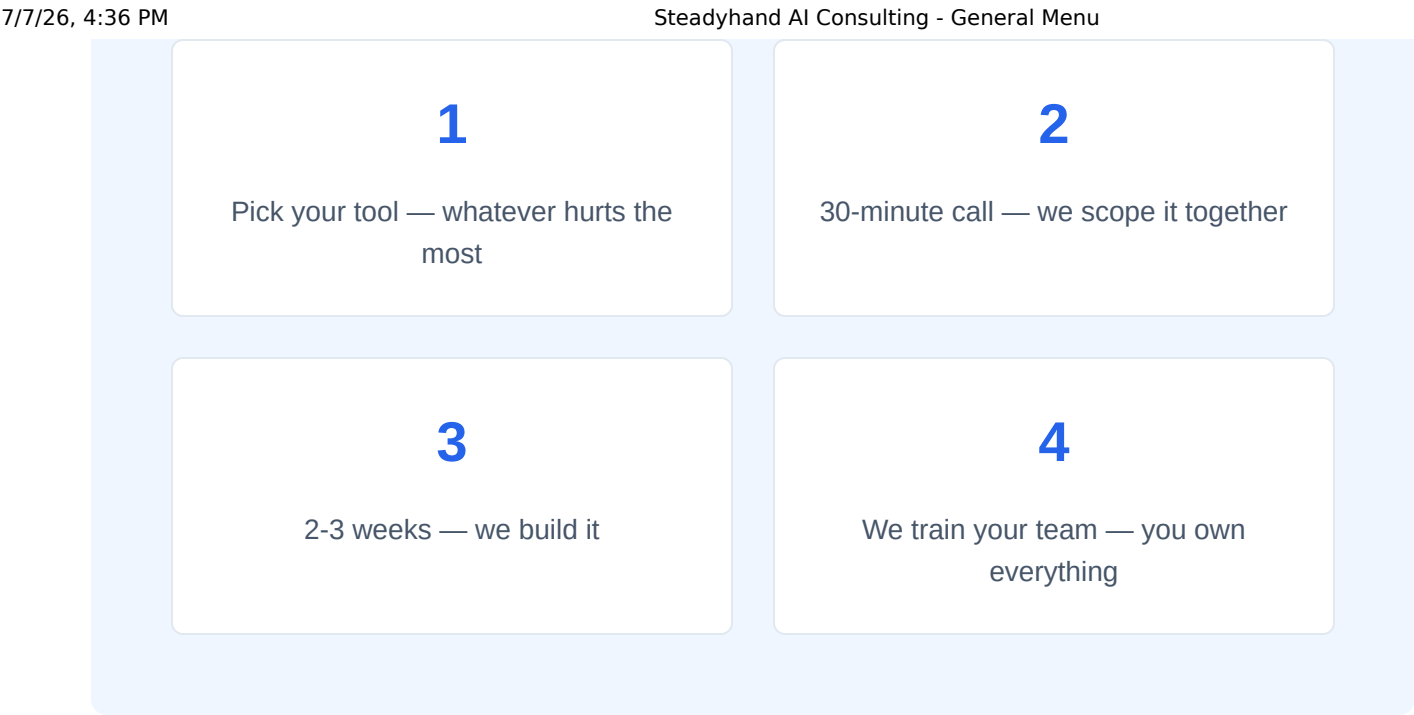

Competitive Tracker

Point it at your competitors — Claude watches their moves and tells you how to respond.

Always know what they're doing.
